

SEVEN PLANETS GROUP OF COMPANIES.

(Seven Planets Trade Pvt. Limited)

"Service Excellence - A Business Growth Strategy"

One **STOP** Supplies Solution for all your Business needs...

Company Perspective:

SPTe was founded with an entrepreneurial spirit and engenders innovation at every turn. We have a strong corporate culture that's based on firmly held beliefs. We believe that our commitment to the interests of our clients proves our value to them. We believe that marketplace leadership is earned, and not given. We believe that integrity is demonstrated by daily actions and that collaboration is the key to successful, long-term partnerships.

Services:

Along with globalization, price pressure is strongly increasing and businesses are forced to cut their production costs dramatically. Savings can mainly be reached in the fields of purchase and process optimization. The goal is to maintain, or even to improve, the quantity and not to reduce the quality of the products while still keeping costs low.

Large enterprises often have their own import departments maintaining their own networks worldwide. For SME's, however, searching for new purchase channels is time consuming and costly. Language barriers and lack of trust in foreign suppliers pose additional difficulties.

Here, SPTe plays an important role. We are in touch with businesses worldwide and are able to take advantage of domestic knowledge and partnerships. This way, synergies are optimized, saving time and money in favor of our customers.

Approach:

We demonstrate our value through straight talk and a genuine point of view. We offer the highest quality services to our clients. We are your one-stop solution for all of your business needs. From personal and administrative tasks, data entry, and customer care to trading & contracting and many more! We understand the demands that running a business can have on your personal, emotional, and secular life and offer solutions that can make running a profitable business fit into your life. The focus of our business is always on the client, and our customers can rest assured that our goals align with theirs.

SPTe are offering outsourcing services to clients from all over the world who wants the quality service in very first time where they can save time and Money.

Contracting:

SPTe builds long-term partnerships to provide lasting solutions. Our collaborative, customer-focused approach results in improved operations, increased efficiency, and greater productivity for our clients.

Proven Results: Focus and Drive

Our focus to deliver longstanding solutions ensures customer success to overcome any and all business challenges. SPTe's consultants are driven to increase productivity and provide support for all of your business needs.

Our People: Our Best Investment

We make it a point to hire the most talented people in the industry. By settling on only the finest and investing in their current and future growth we are able to provide our clients with sharp-minded, intuitive, and innovative consultants who are personally dedicated to get the task done.

Attention to Detail: Comprehensive Services

SPTe's attention to even the smallest detail guarantees that our clients will be satisfied with our work. We are confident that we provide superior service and superior results at rates far less than other competing firms.

SPTe comes as a rescue!

Our dedicated professionals are online. So feel free to contact us, any time of the day during our working hours throughout the week.
